Mr Sławomir Demkowicz-Dobrzański, Head of ERB IPS referred to the ERB 2020 Agenda adopted last year, and specifically to the first focus area of the cooperation: lobbying. Within this focus area two policies remain of crucial importance for ERB: EU Cohesion Policy after 2013 and EU Strategy for the Baltic Sea Region.

ERB Executive Board expressed the necessity of active involvement in the ongoing preparation process for the Policy after 2013.

Mr Andersen moderated the discussion of the ERB Executive Board members around the following issues:

1. How much do the ERB regions internally consider the ETC objective and EUSBSR in the discussion on the future Cohesion Policy?
2. Is there a need within ERB to further develop arguments for the ERB position in a more popular form?
3. How do we argue for enhancing ETC objective?
4. How can we lobby for including all ERB area into the South Baltic Programme, and the ENPI to include the Kaliningrad Region in the programme area?
5. How can we contribute to the Territorial Agenda, and hereby underline the role of macro regional strategies and functional geographies?

After the discussion ERB Executive Board adopted the lobbying.

In connection with the discussion on future Cohesion Policy and regarding the recent departure of two ERB representatives from the Monitoring Committee of the South Baltic Cooperation Programme, the ERB Executive Board discussed a proposal that the ERB be represented in the Monitoring Committee by a Swedish politician (Committee member) and a Lithuanian politician (Committee deputy member).

The Board appointed Mr Arunas Burksas to be the deputy member of the South Baltic Programme Monitoring Committee representing Euroregion Baltic. It was also agreed that the Swedish partners will discuss this issue internally and name their representative to the post of the member of the Programme Monitoring Committee by the middle of March 2011.

The Board asked the Task Force to prepare a proposal of the ERB contribution to the ongoing Strategy review process so that it can be presented to the Commission in the middle of March.

## 10. **ERB 2020 Agenda. Focus Area: Strategic Actions**

ERB 2020 Agenda adopted last year in its second focus area of the cooperation: strategic actions addresses three specific objectives for Euroregion Baltic

1. implementation of the ERB Joint Development Programme
2. accomplishment of prioritised institutional activities, and
3. development of platforms supporting other forms of cooperation and actors in the ERB area.

Two concrete activities were addressed by the Executive Board at the meeting: supporting cooperation around water issues and supporting cooperation around youth issues.

### 10.1 **Cooperation around water issues**

Ms Carolina Gunnarsson, water expert from Kalmar County presented the overview of ERB water cooperation initiatives which began as early as in 1998 with one of the first ERB working groups dealing with environmental issues. Cooperation around water issues has continued ever since through joint ERB projects like Seagull devERB, Seagull II and a series of Moment projects.

Mr Erik Ciardi of the Regional Council in Kalmar talked about the new EUSBSR horizontal action (multi-level governance, local and regional spatial planning and sustainable development) which the European Commission requested to be further developed by the Swedish regions of Kalmar and Västerbotten under possible project within the Baltic Sea Region Programme entitled INVOLVE.

ERB Executive Board members were asked to consider the scope of its support to water cooperation. The scenarios discussed included:

1. full-fledged support whereby ERB member regions continue to support ERB Water Core Group and ERB is a partner of the project INVOLVE,
2. limited support whereby ERB member regions continue to support ERB Water Core Group but ERB is not a partner of the project INVOLVE,
3. lack of support whereby ERB member regions do not support ERB Water Core Group and ERB is not a partner of the project INVOLVE.

After the discussion the ERB Executive Board decided to give full-fledged support to water cooperation. ERB member regions will continue to support ERB Water Core Group within the implemented projects (Moment until December 2012 and INVOLVE afterwards). In addition, ERB will become a partner of the project INVOLVE through the formal project participation of the Association of Polish Communes hosting ERB International Secretariat.

## 10.2 **Cooperation around youth issues**

Mr Irmantas Sujeta, the newly elected Chair of the ERB Youth Board, Ms Lisa Wagnborg, YC3 Project Manager and Mr Daniel Olovsson, YC3 Financial Manager presented the report of the activities implemented within the YC3 project, as well as the idea of a new project proposed to involve the ERB stakeholders around youth issues.

The Board took note of the information and congratulated the youth on the work done. A discussion followed during which the Executive Board members asked questions regarding specific requirements for the involvement of their regions in the new project. They had been earlier requested to consider the scope of its support to youth cooperation. The scenarios discussed included:

1. direct regional support whereby ERB member regions continue to support ERB Youth Board and become partners in the new youth project,
2. indirect support to youth cooperation whereby ERB member regions continue to support ERB Youth Board and support the project by finding a more relevant partner in their regions to represent them, and
3. institutional support whereby ERB member regions continue to support ERB Youth Board but do not support or become partners in the new youth project.

A more specific report from the ERB Youth Board lacking, the ERB Executive Board decided to continue their discussion on how to support youth cooperation at their next meeting in May. In order to facilitate the future discussion and to make decisions, the Board asked that such a report is submitted by the Youth Board to the ERB regional secretariats.
