Without WUP

Implementation

With WUP

Implementation

WaterNets

Objective: Faster implementation

Activities:

- WUPs - develop, establish new, support (tools and methods), define their role within the water administration
- Concrete measures
- Trans baltic co-operation at different levels
- Parallel project involving Kaliningrad

Recommendation of continues work

- Ramboll management
 - Recommendations of spreading the WUP concept
- HELCOM
 - refers to the MOMENT approach
- PAC-Nutri (EUSBSR)
 - Close dialogue throughout the MOMENT project
 - WUP stated in the EU Strategy for the Baltic Sea Region Action Plan
 - Invited to present new flagship project idea

ERB Executive Board members are requested to:

1. support the “WaterNets” project idea,
2. recommend that ERB should join the “WaterNets” seed money application (as partner or associated partner) with the Regional Council in Southern Småland, official host organisation acting as a project partner.

Water Nets

Mainstreaming modern and eco-adapted solutions.

Mobilisation!

...and in addition

- Long term durability
- Local monitoring and evaluation of implemented measures
- Continues involvement of stakeholders
- Exchange of experience between regions and countries for further enhancement
- Forum for debate and political commitment

...how

- Established **contacts** with key stakeholders
- **Voluntary** agreements
- **Assistance** in finding suitable sites
- **Understanding** to why measures need to be implemented
- **Knowledge** to where and which measures are needed the most
