Aim

The short term aim:

To complete an application for EU funding.

The medium term aim:

To carry out the LUPP as a pilot survey in ERB area.

The long term aim:

1. To tighten youth cooperation in ERB based on knowledge.
2. To use this tool to make joint actions for the benefit of the youngsters.
3. To use this tool in the Baltic Sea Region to compare the situation for young people and to make joint actions based on knowledge.
4. To become a flagship project in the EU Strategy for the Baltic Sea Region.

WHY SYPERB?

To create a knowledge based sustainable youth policy.

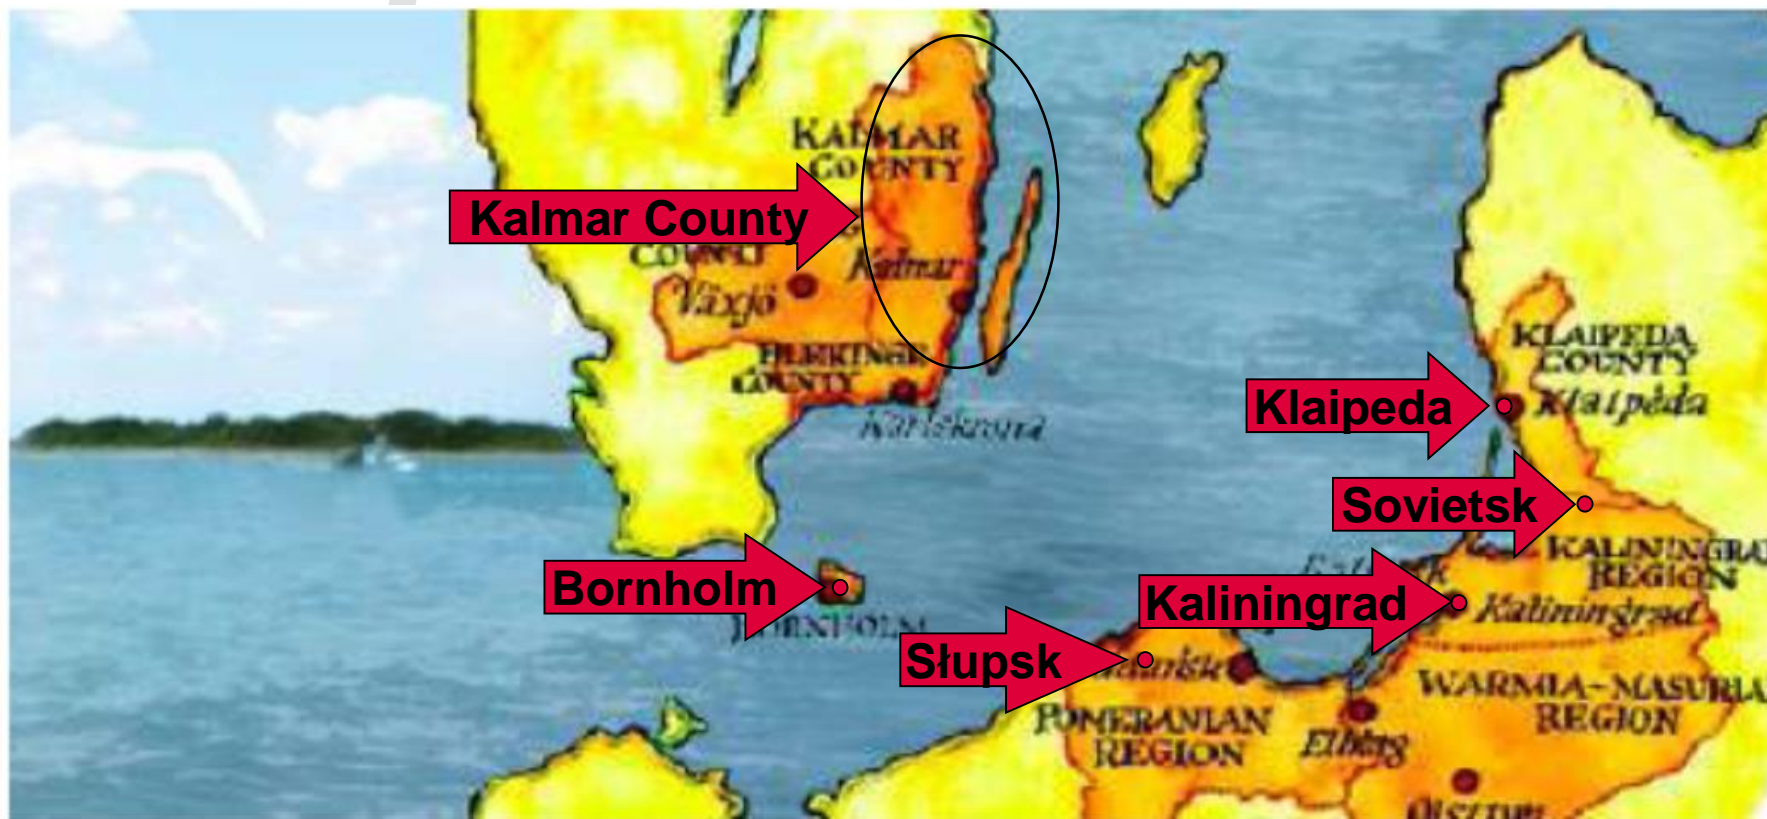

- To get a knowledge based picture and compare the situation for young people, living in countries at different stages of development and in different socio-economic situations
- to defining what challenges each municipalities stands in front of and based on this create a knowledge based strategic youth policy

For the gain of the ERB Region

- The regions in are peripheral located - young people leaves. The Survey creates knowledge of youth issues to formulate policies on issues affecting them and enabling them to stay in the regions or come back.
- ERB become an example of a possible cross-border cooperation in order to implement the EU Youth Strategy.
- Youth Board of Euroregion Baltic - to come up with a new idea, and to propose actions to develop the situation for young people in the region.

PARTNERSHIP

- The Regional Council in Kalmar County - the applicant organisation
- One or two municipalities in each region
- Euroregion Baltic (+ Youth Board).
- Researchers from the Universities.
