

Umbrella 2.0 – Culture and Tourism
Sokndal in Norway
www.visitsokndal.no

A photograph of a row of traditional Norwegian wooden houses built on a rocky cliff overlooking a river. The houses are painted in various colors, including brown, white, and red. The river flows rapidly, creating white water rapids in the foreground. A large rock formation is visible on the left side of the frame.

railway outdoor will be completed this summer

The place outside town hall looks like that today...

Plans for the design of the square outside the town hall

Cittaslow

Cittaslow is an international movement established in Italy in 1999. Sokndal was the second municipality outside Italy to become a member in 2003. Today, there are 200 municipalities that are members worldwide.

Main goals for Cittaslow:

1. Quality of life for the inhabitants
2. Identity of the place
3. Hospitality
4. Sustainable development

Nordic network Cittaslow:
Iceland, Finland, Denmark and Norway –
where 7 municipalities are members

Ulvik last summer – 2nd Cittaslow town in Norway

Cittaslow Sokndal is now working with:

- Sign with local history along path in the town
- Collaborate with others on establishing a job center for people without work. The goal is to get the unemployed up in the morning, give them work training and eventually a regular job
- Build a small building for fiskermen and others – gapahuk – along the river.
- Annual love week with various activities - week number 39
- Planning several local events when it's possible. Something a little crazy who will get good marketing.
- New website to profile Sokndal in the best possible way.
- The most important thing about Cittaslow is to involve the inhabitants
- Sign on 10 meeting points with information about Cittaslow

IDRETTSANLEGGET - EN GOD MØTEPLASS

Det gode liv handler om å ta seg tid til det man har lyst til. For mange er det gode liv en **aktiv hverdag, god helse og kameratskap**. Tilbudene her er mange: **Fotball, håndball, friidrett, volleyball, tennis** og mye mer.

Cittaslow in Sokndal continuation:

- Prepare information about different places in the municipality, where residents and others can go for walks and get information about the place
- Photo/video competition where we establish a new image bank that can be used by everyone
- Competition making a Cittaslow sweater

Magma UNESCO Global Geopark is a geographic area with a geology that has a major international importance, recognized by UNESCO, and where sustainable development plays an important role. Magma geopark is in a network of more than 140 UNESCO Global Geoparks in about 40 different countries on 5 continents and their representatives meet regularly. Although the background for a geopark is geology, really it's all about the people – both locals and tourists, who are willing to explore, experience and share the vast possibilities of the natural and cultural attractions in the geopark!

There are 46 geological and cultural locations in the area for you to explore!

Sokndal is a part of Magma Geopark.
