MOMENT

*Modern Water Management in the South
Baltic Sea Area*

ERB initiative

- Seven out of eight regions are represented

Some facts

- Officially two projects – MOMENT and MOMENT UP
- Total budget: € 2 600 000
- Sep 2009 - Dec 2012, prolonged until Jun 2013
- Totally 25 partners; 11 SE, 4 PL, 5 LT and 5 RU
- The Regional Council in Kalmar County is the Lead Beneficiary

Investing in your future

EUROPEAN
UNION
European Regional
Development Fund

Main objective

Through cooperation between partners in Russia, Lithuania, Poland and Sweden, develop local networks (1) and local measures (2), that reduce the release of harmful substances to the South Baltic Sea Area

Minija River

Water Users Partnership (WUP)

- New “modern” method of managing water
- Main objective is to reduce outlets of nutrients and hazardous substances through public participation
- Local and regional stakeholders
- Working within a specific catchment area
- Develop local program of measures

Establishing a WUP

Identify stakeholders

- Farmers/land owners
- NGO:s
- Local/regional Authorities
- Industries
- Environmental institutions
- Other Associations

Invite them and start the process
(9-78 weeks) process of
establishing a WUP

Development Fund

Concrete Pilot Area Measures

- Main objective is to decrease the outlet of nutrients and hazardous substances
- Sustainable technology
- Innovative measures
- Focus on small diffuse sources
- Potential for the entire south Baltic Sea area

Concrete pilot area measures

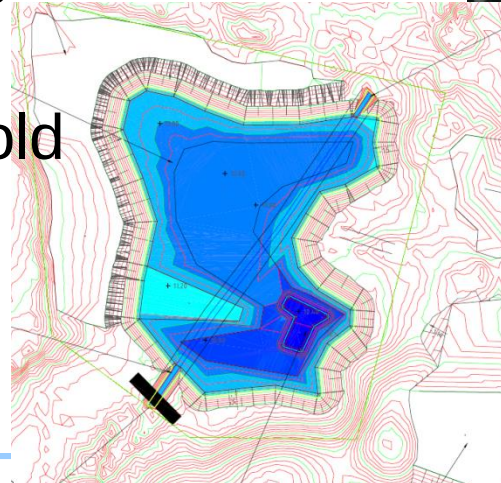

1 Land use

- Wetland for nutrient reduction and fish production
- Advise to forest owners

2 Private sewers

- Biogas – feasibility study
- Common household solutions

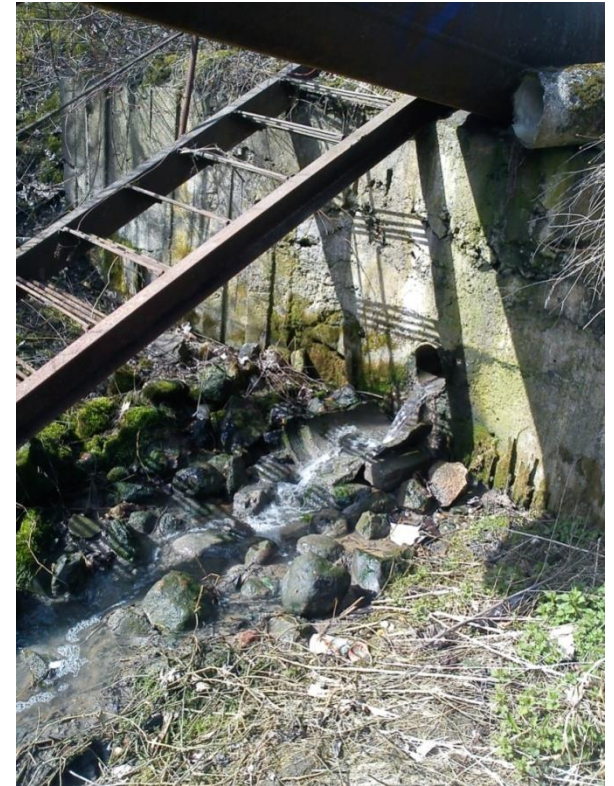

3. Stormwater

- Special plans for three towns
- Innovative stormwater facility and solutions

4. Information

- Phosphate free detergent campaign
- GIS information system

Investing in your future

EUROPEAN
UNION
European Regional
Development Fund

- More than 200 meetings
 - With 4000 participants
- Traveled approx 120 000 km
 - Thanks to our web meetings we have saved 10 000 km
