**ERB Youth Board**

Ms Mille Sommer, Member of ERB Youth Board from Bonrholm presented short information about the situation in the ERB Youth Board to start a discussion about how to ensure the participation of youth representatives from all the ERB member organisations, and also how to ensure that the youth from the ERB territory is represented in the ERB YB.

Commenting on the presentation, Ms Anne Thomas suggested that the year 2019 could be used for reorganising the work of the ERB YB. It should be done through an internal discussion within the member organisations and then within the ERB itself.

Ms Akko Karlsson said that in the future the ERB YB should include youth representatives from all member organisations. These representatives could be recruited from different organisations and bodies such as NGOs working with youth or municipal councils.

Mr Piotr Zwolak, Warmińsko-Mazurskie Voivodeship stated that there is an added value from the involvement of young people in the ERB work. The problem is to ensure continuity of youth participation in the YB. Perhaps we should change the concept of the YB and focus on bigger one-off events that would serve as a basis for future youth work.

Mr Jan Martinsson, Regional Council in Kalmar County said that despite low activity of the YB the organisation has been engaged in a number of youth projects such as CaSYPoT, Youth Core Group Network, while new projects eg. SIA4Y are now in the pipeline.

Ms Britt-Louise Berndtsson said that lessons needed to be done at

home so that all member organisations have their representatives in the YB.

Mr Damian Ciachorowski, Member of ERB YB from the Association of Polish Communes said that a way should be found on how to combine the term in YB with local/regional structures.

Ms Anne Thomas asked about the mandate of youth representatives in the YB and what the mission and vision of the YB would be in the future. Young people are often not interested in local or regional affairs. How should we proceed to change that?

Mr Jan Martinsson suggested that the YB could be transformed into a task force to develop joint events and projects.

Christina Mattisson agreed that creating a task force could help developing positive momentum in ERB youth cooperation.

Ms Małgorzata Samusjew, Association of Polish Communes ERB said that their project Youth Core Group Network (YCGN) in South Baltic could serve as an example. The project will create a network of young people by using existing structures eg municipal councils from Poland, Sweden and Denmark.

Ms Krystyna Wróblewska said that there was a regional youth council in Pomorskie and that the the experience shows that activists are often much better engaged than young politicians. Eg Pomorskie Business Week graduates could be involved in the ERB work instead of regional council members. BSSSC youth declaration could also be combined with the strategy of Casypot.

Mr Damian Ciachorowski said that one crucial thing in youth participation was that often adults do want to give real voice to the youth, organising instead meetings and exchanges. But that's not policy but participation. To do that we would need to include youth in the decision making processes. ERB has young person in the Board which unique.

Following the discussion, the Executive Board decided to discuss the following issues at its next meeting:

- Local/regional structure vs YB
- Mandate, influence, power
- Focus on the task force with project results together with YB
- Use 1-2 days to do youth vision/declaration at the Baltic Sea
