

Boosting Cross-border cooperation capacities of Local Actors in the South Baltic Sea

WHY DO WE NEED UMBRELLA PROJECT?

The South Baltic Programme is still poorly available to small organizations because of:

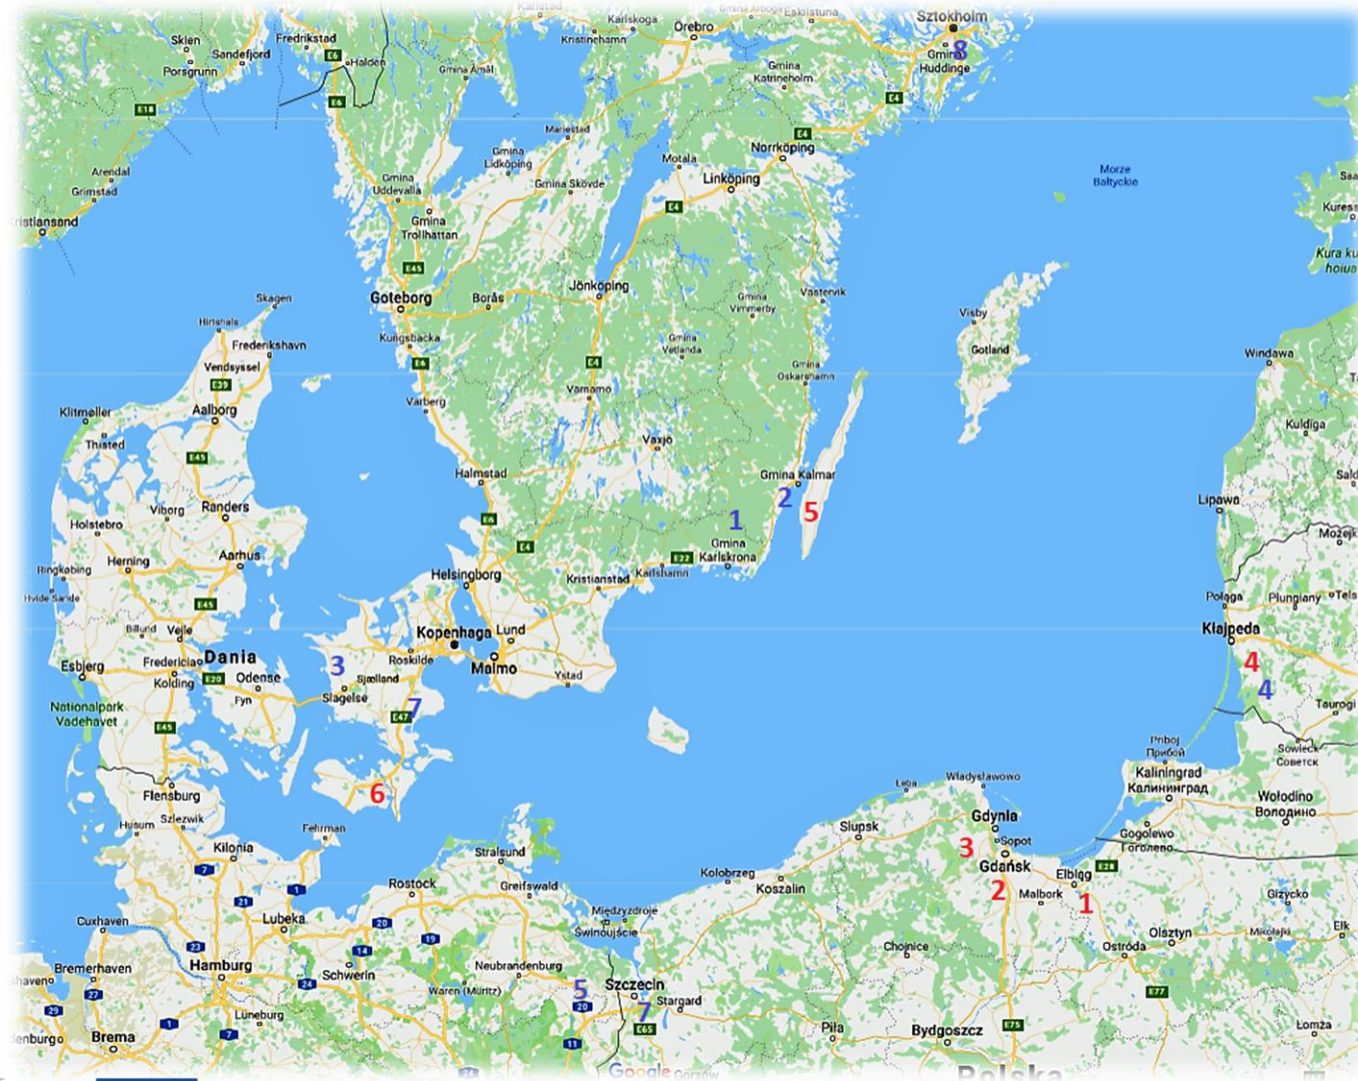

1. Insufficient institutional and financial capacities
2. Communication barriers (lack of English skills)
3. Lack of competences and capacities for project development and implementation

WHAT DO WE WANT TO DO?

1. PICTURE OF POSSIBLE STAKEHOLDERS IN UMBRELLA PROJECT

2. MAPPING OF STAKEHOLDERS: SMALL LOCAL AND REGIONAL ORGANIZATIONS (Newcomers in the South Baltic Program or that, in general, have never been involved in Cross-border cooperation networks/ Entities interested in forming a «South Baltic Identity»

3. CREATION OF THREE IDEAL GROUPS TO BE TREATED WITH TAILOR-MADE SOLUTIONS

A. NEWCOMERS: the main objective is to attract and involve them in the CBC networks, teach them how to move the first steps in CBC and help them overpassing their barriers (language, capacity and competences, bureaucracy, networking, knowledge exchange)

B. INTERMEDIATE: they consulted the Contact Points of the South Baltic Program but finally they did not apply for funds. Probably their main barriers consist in lack of English skills, insufficient institutional and financial capacities, lack of competences in project management. The main objective here will be to : detect what are their priorities/ their field of interest/ the barriers that impeded them to actually apply for grants

C. EXPERTS: organizations that are well established in the Cross-border Cooperation networks. They will have the possibility to be involved in those UMBRELLA's activities devoted to make local actors to meet and to harvest new ideas/ connect to new networks.
