Sweden currently holds the presidency of the Baltic Sea Parliamentary Conference (BSPC), which is a forum for political dialogue between members of national and regional parliaments from the Baltic Sea region, with the purpose of raising awareness and opinion on issues of importance for the region and supporting various initiatives that promote a sustainable environmental, social and economic development in the region. As part of its presidency, Sweden will be hosting the 30th annual conference of the BSPC on 29–31 August 2021.

The Baltic Sea Parliamentary Youth Forum of 2021 will take place in connection to the annual conference of the BSPC, in an effort to promote dialogue between young people of the region and policymakers. The purpose is

also to capture valuable input from the young generation, which is of great importance in our common endeavour to build back our region – better, greener and stronger – after the COVID-19 pandemic. The Youth Forum will include a seminar, a panel discussion and a roundtable discussion on how to secure a democratically and environmentally sustainable future, and the outcome of the Youth Forum will be presented at the BSPC annual conference. The Youth Forum will be centred around themes that also are high on the BSPC agenda – democracy, climate change and biodiversity – providing an opportunity for input into the BSPC's future work, and especially into the work of the working group on climate change and biodiversity.
